## In The Beginning...

In November 1999 a task force was established by the Oregon Legislature to advise the Oregon Public Utility Commission on issues pertaining to utility poles. The task force submitted proposed rules for determining appropriate sanctions for unauthorized attachments and criteria for certifying compliance with laws regulating pole attachments. The Oregon Joint Use Association (OJUA) was formed based on the initial work from the task force and the realization of what else needed to be accomplished to help the entire industry be successful.

## Our Mission:

A resource that builds trust, cooperation, and organization between support structure (pole) owners, users, and government entities that will result in a safe efficient use of the Right of Way and a self-sustaining nonprofit association.

## Our Future:

A fully self-sustaining association that educates, establishes partnerships, and is the source of information and communication regarding the Joint Use Industry.

## Why Join the OJUA?

The primary purpose of the OJUA is to serve in an advisory capacity to the Oregon Public Utility Commission, acting as the Voice for the Industry in rulemaking, policy, and other decisions. Membership in the OJUA also provides service utility providers the opportunity to network with other utilities, attend technical workshops at special member prices, promote your company, and receive the latest industry information.

## Focus

- Publicity & Education
- Standards Development
- Legislative & Regulatory Review
- Conflict Resolution

## Benefits

- Participate in Shaping the Future
- Educational Opportunities
- Cost-Saving Opportunities
- Access to Latest Industry Information
- Networking Opportunities
- Annual conferences and monthly meetings to learn and discuss trends, OPUC rulings, and NESC practices.
- Standards, Conflict Resolution, and Publicity and Education Committees which help members better interpret and apply the NESC.
